In re Patent Application of:

Hans Wohlfromm et al.

Application No.: 10/533,315

Filed: April 29, 2005 Art Unit: N/A

For: METAL POWDER INJECTION MOLDING

MATERIAL AND METAL POWDER INJECTION MOLDING METHOD

Confirmation No.: N/A

Examiner: Not Yet Assigned

INFORMATION DISCLOSURE STATEMENT (IDS)

Customer Window
U.S. Patent and Trademark Office
Randolph Building
401 Dulany Street
Alexandria, Virginia 22314

Dear Sir:

Pursuant to 37 CFR 1.56, 1.97 and 1.98, the attention of the Patent and Trademark Office is hereby directed to the references listed on the attached PTO/SB/08. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the references be made of record therein and appear among the "References Cited" on any patent to issue therefrom.

This Information Disclosure Statement is filed within three months of the date of entry of the national stage of an international application as set forth in 37 CFR 1.491 (37 CFR 1.97(b)(2)).

A summary (or abstract) of the non-English language references is enclosed.

Docket No.: 12810-00081-US

A concise explanation of relevance of the items listed on form PTO/SB/08 is given for only non-English language listed items.

DE 100 31 923 relates to soft magnetic material with heterogeneous building of structures and procedure for its production.

DE 199 25 197 A1 relates to an injection mouldable metallic powder composition and injection moulding and sinter procedure using a such composition. A copy of the counterpart U.S. Patent 6,051,184 has been provided.

JP 06-228607 relates to a method to the production of sintered metallic part by injection molding of metal powder. An English-language abstract has been provided.

EP 0 446 708 A2 relates to thermoplastic materials for manufacturing metallic articles. A copy of counterpart U.S. Patent 5,198,489 has been provided.

EP 0 465 940 A2 relates to thermoplastic masses for preparing metallic mouldings. A copy of counterpart U.S. Patent 5,362,791 has been provided.

EP 0 582 209 A1 relates to alkoxylation products and their use as dispesion agents. A copy of counterpart U.S. Patent 5,424,445 has been provided.

EP 0 710 516 A2 relates to process and injection-moulding compound for the manufacturing of shaped metallic bodies. A copy of counterpart U.S. Patent 5,802,437 has been provided.

WO 94/25205 relates to a method of producing sintered articles. A copy of counterpart U.S. Patent 5,611,978 has been provided.

WO 01/81467 A1 relates to a binding agent for inorganic material powders for producing metallic and ceramic moulded boides. A copy of counterpart U.S. Publication 20030091456 has been provided.

Application No.: Not Yet Assigned Docket No.: 12810-00081-US

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists. In accordance with 37 CFR 1.97(h), the filing of this Information Disclosure statement shall not be construed to be an admission that any patent, publication or other information referred to therein is "prior art" for this invention unless specifically designated as such.

The Director is hereby authorized to charge any deficiency in the fees filed, asserted to be filed or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 22-0185, under Order No. 12810-00081-US.

Dated:

5/25/2005

Respectfully submitted,

By:

Matthew J. Mason, Reg. No. 44,904

*EXAMINER: Initial if reference considered, whether or not citation is in conformance with MPEP 609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to applicant. Applicant's unique citation designation number (optional). See Kinds Codes of USPTO Patent Documents at www.uspto.gov or MPEP 901.04. Enter Office that issued the document, by the two-letter code (WIPO Standard ST.3). For Japanese patent documents, the indication of the year of the reign of the Emperor must precede the serial number of the patent document. Kind of document by the appropriate symbols as indicated on the document under WIPO Standard ST.16 if possible. Applicant is to place a check mark here if English language Translation is attached.
